Halliburton offers engineered casing solutions to help operators run and land casing to depth and achieve long-term zonal isolation. Halliburton is the only oilfield services provider to offer both cementing services and casing equipment globally. This integrated approach allows operators to gain efficiency and reduce operating costs.

Casing Equipment - Halliburton

Every well has unique formation, temperature, and pressure properties along with other variable such as annuli trajectory and diameter that can affect fluid movement during cementing operations and the cement sheath. Taking into account such variables, Halliburton designs cementing jobs with a slurry design intended to mix easily on location, stay fluid until the job is complete, and then ...
