Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

### Open Data Philippines What Does

The Open Data Philippines and the new Freedom of Information (FOI) Executive Order, aims to create an active exchange of information between the government and the public by introducing a central database for all publicly available government data and information through data.gov.ph.
